

Flash Report #: 1 Tropical Storm Emily

8/2/2011 0800

Emergency Operations Center Level: 3

WebEOC Incident: TS Emily

Current Situation:

Tropical Storm Emily is located at 15.5N 64.0W or about 245 miles SE of San Juan Puerto Rico. Movement is to the west near 16mph. Maximum sustained winds are near 40mph.

There is considerable uncertainty as to where Emily will be and how strong it will be in 3 to 5 days. Please continue to monitor updates from the National Hurricane Center and the Polk County EOC.

County Actions:

The Polk County EOC is monitoring Emily. We will begin conference calls today with the National Weather Service. All EOC staff, ESF's and agencies should continue to monitor updates on Emily and be prepared for potential impacts this weekend.

Emergency Management will continue to monitor the situation and provide additional updates as necessary.

State Actions:

The State EOC is monitoring Tropical Storm Emily.
